May 17, 2021

Dear parent/guardian,

This past spring, your child was registered to participate in the State of Texas Assessments of Academic Readiness (STAAR) assessments. This year, STAAR results are for learning only and are meant to show where your child is meeting grade level expectations in each subject and where they may need additional support for learning recovery. Next year, schools will use results along with other academic data to create plans to support students’ academic progress. Students who were not successful or who did not participate in STAAR this year will be provided accelerated instruction. These are some of the many important steps to our school’s recovery. On June 28, you will be able to access your child’s results on TexasAssessment.gov.

Please follow the directions provided on the following document to access your child’s results: Steps to Access your Child’s STAAR Scores

To assist with understanding the results, please review the Three Things Families Should Know about the 2021 STAAR.

If you do not have internet access, please contact the school for assistance with accessing available reports for your child.

Feel free to contact the school at (281) 591-4950 if you have any questions.

Sincerely,

Ben Ibarra
Principal, Blanson CTE High School
